why write another book on ethics as practitioners we are involved both in the design and delivery of services to people with mental health problems in common with all other professionals our work has led to the experience of ethical dilemmas typically these have involved major confrontations either with our colleagues or our consciences this book however is not limited to a discussion of such major themes rather we have tried to use a broader canvas ethics in our view is really about the judgement of right and wrong in ordinary everyday life ethics are highly personal we fashion our own personal code from our experience of others and from the tests which bring meaning to our lives such experiences shape our individual values we bring these codes and values to our work we are not always aware of their influence in our dealings with people although we may not always be aware of it all our actions pose an ethical question given that our work involves us in helping others to live ordinary satisfying lives this challenge heightens the intensity of our ethical dilemmas this is most evident where our personal code conflicts with the implicit code of the health setting

anthropologists criticize some components of bioethics because of their abstract principles derived from arm chair

philosophy and lack of cross cultural analysis and ethnocentric view for that they prepare a readymade ethical code of conduct which may differ significantly from culture to culture this volume aims to investigate such area of bioethics which may criticize in the light of anthropological fieldwork the work also finds some area of bioethics to study cultural construct of morality including cross cultural analysis keeping in mind cultural relativism in true sense the present work is an outcome of national seminar entitled ethical issues in anthropological research organized by department of anthropology west bengal state university during 19 20 january 2012 hope this work will be of interest not only to anthropologists or scholars of related field but also funding agencies and participant beneficiaries of the said field

the core of this text comprises chapters on all the key issues of business in canada today each chapter includes a hypothetical case study and an introduction highlighting key ethical points two academic essays and a real life case study questions for discussion accompany the essays and case studies the author has also included a general introduction to ethical issues and an overview of ethical theory a section on institutionalizing ethics discussing ethics officers programs codes etc and appendices providing excerpts from important classic contributions to ethical theory and from relevant canadian law

this unique volume presents ai in relation to ethical points of view in handling big data sets issues such as algorithmic biases discrimination for specific patterns and privacy breaches may sometimes be skewed to affect research results so that certain fields to appear more appealing to funding agencies the discussion on the ethics of ai is highly complex due to the involvement of many international stakeholders such as the un oecd parliaments industry groups professional bodies and individual companies the issue of reliability is addressed including the emergence of synthetic life 5g networks intermingling of human artificial intelligence nano robots and cyber security tools features discusses artificial intelligence and ethics the challenges and opportunities presents the issue of reliability in the emergence of synthetic life 5g networks intermingling of

human artificial intelligence nano robots and cyber security tools ethical responsibility and reasoning for using ai in big data addresses practicing medicine and ethical issues when applying artificial intelligence

this casebook collects 64 case studies each of which raises an important and difficult ethical issue connected with planning reviewing or conducting health related research the book s purpose is to contribute to thoughtful analysis of these issues by researchers and members of research ethics committees recs known in some places as ethical review committees or institutional review boards particularly those involved with studies that are conducted or sponsored internationally this collection is envisioned principally as a tool to aid educational programs from short workshops on research ethics to in service learning for scientists and rec members to formal degree or certificate courses in such settings instructors will typically select a number of case studies that will be distributed to the participants to provoke and focus discussion to assist those using these case studies in their classrooms and workshops a teaching guide has been included individuals who want to stimulate their own thinking about research ethics or to become more familiar with a range of real world dilemmas in international health research especially in developing countries may also benefit from perusing this book either on topics of special interest to them or as a whole

this comprehensive anthology represents the key issues and problems in the eld of medical ethics through the most up to date readings and case studies available each of the book s six parts is prefaced with helpful introductions that raise important questions and skillfully contextualize the positions and main points of the articles that follow

ethical problems in today s societies moral and political problems we are facing in this days causes of the problems how to solve them in our society and how to eradicate them forever

how do we know right from wrong good from bad help from hindrance and how can we judge the behaviour of others ethics

are the rules and guidelines that we use to make such judgements often there are no clear answers which make this subject both interesting and potentially frustrating in this book the authors offer readers the opportunity to develop and express their own opinions in relation to ethics in psychology there are many psychological studies that appear to have been harmful or cruel to the people or animals that took part in them for example memory researchers carried out studies on a man who had no memory for over forty years but because he had no memory he was never able to agree to the studies is this a reasonable thing to do to someone comparative psychologist harry harlow found that he could create severe and lasting distress in monkeys by keeping them in social isolation is this a reasonable thing to do even if we find out useful things about human distress if you were able to use psychological techniques to break someone down so that they revealed information that was useful to your government would you do it if so why if not why not these ethical issues are not easy to resolve and the debates continue as we encounter new dilemmas this book uses examples from psychological research to look at key ethical issues ethical guidelines of psychologists socially sensitive research ethics in applied psychology the use of animals in research this book is essential reading for undergraduate and pre undergraduate students of psychology and related subjects such as philosophy and social policy

much has changed in warfare in recent years with america now dominant on the international scene and terrorism the new enemy in light of these changes the need for moral grounding in military actions is a more pressing concern than ever when it was originally published moral issues in military decision making reflected the concerns posed by nuclear stalemate and the lessons of vietnam in that highly praised work anthony hartle outlined the essential elements of the professional military ethic created for american military forces in this new edition he reexamines the moral foundations for america s military leadership in the post 9 11 era considering world affairs since the first edition the gulf war bosnia afghanistan iraq 9 11 and the emergence of the united states as an unrivaled military power hartle explains how these events have raised ethical issues that differ dramatically from those of the cold war by the war on terrorism homeland defense asymmetric warfare the

proliferation of american military interventions and the un s role in peacekeeping operations using meticulously analyzed case studies twice as many as in the first edition he considers such moral dilemmas as torture challenging superior officers use of overwhelming force and responding to fire in the presence of civilian shields in this revision hartle examines further the status of professional military ethics in light of current affairs changes in the articulation of military values and recent research in a new chapter on human rights he relates moral principles directly to values embedded in the constitution and argues that overwhelming american military power cannot succeed unless it is accompanied by the moral force of the values it seeks to protect difficulties of applying conventional laws of war and human rights doctrine in military operations hartle convincingly shows that national security is as much about the preservation of moral principles as it is about the protection of america s citizens and borders his book demonstrates that the american military must continue to observe those principles in order to be effective in its primary mission

this set is comprehensive and technically literate and more informative on regulation and policy issues thomas murray is a world renowned leader in this field

for courses on ethical professional and legal issues in counseling and psychology departments this ethics text focuses on counseling and counseling psychology in a format that serves beginning students provides a useful format and structure for professors teaching ethics courses and inspires critical thought about ethical issues through case scenarios reprints of many codes of ethics and narrative information this book not only functions as an introduction to professional counseling and counseling ethics but it also serves as a compendium of contemporary ethical codes and issues

in memory of ethics a dissection of ethical and social issues in pakistani professional healthcare practice explores the ethical challenges faced within the healthcare sector with a focus on pakistan from workplace behaviors to medical procedures covid 19 era dilemmas and broader social health concerns the book explores the intricate intersection of ethics

and healthcare in the region the book is divided into five sections section i covers topics such as workplace behaviors and ethical conducts while section ii covers medical procedures and patient doctor relationships section iii addresses the unique ethical challenges brought forth by the covid 19 pandemic including guidelines for therapists and the ethics of mandatory vaccinations section iv examines the impact of social media on healthcare gender discrimination and the ethical considerations surrounding prisoner rehabilitation the final section offers insightful essays on ethical and social issues covering topics like body shaming free healthcare and patient privacy the editors also explore controversial topics including euthanasia abortion and assisted reproductive technology the key feature of this book is that it provides a comprehensive coverage of diverse ethical dilemmas in healthcare furthermore it is an attempt to give a subjective understanding of healthcare ethics through thought provoking essays shedding light on contemporary ethical issues in a pakistani context the contributors have incorporated real world examples and case studies to illustrate ethical principles in action in memory of ethics a dissection of ethical and social issues in pakistani professional healthcare practice book is essential reading for anyone interested in understanding complex ethical and social issues and promoting integrity in healthcare practices
