in his third book strauss delves into the mysterious process whereby an idea is born in the mind and materialized through the hand in the expression of an artwork how exactly does this happen it s a question so basic an act so fundamental to art making that it has rarely received attention it makes an ideal topic for strauss a writer with an exceptional ability to animate art s philosophical dimensions in a clear persuasive manner during this time when craft and the direct manipulation of materials by the artist appear to be in eclipse strauss comes to their defense in a spirited cri de coeur featuring over 35 illustrations the book examines a wide variety of media and individual examples it explores the works of sculptors martin puryear ursula von rydingsvard and donald lipski painters leon golub and ron gorchov and writers robert duncan robert kelly guy davenport john berger and leo steinberg in addition there are essays on joseph beuys s 7000 oaks in ireland contemporary haida carvers reg davidson and jim hart cecilia vicuna s memory of the fingers and the influence of curators harald szeemann and walter hopps on the staging of contemporary art exhibitions known primarily for his writings on photography and politics strauss here focuses on the least mediated arts painting sculpture and writing his claims are supported by a series of close readings which succeed in recovering the immediacy of the hand and revitalizing contemporary art s connection to the past

originally published in 1942 this book was very different from anything else written about the psychology of hands the author had worked amongst apes and monkeys at the zoo patients in what at the time were called mental hospitals and amongst all manner of men women and children the results of her research are found here where she looks at how the hands link to the brain and ultimately our personality a pioneer in this field the author continued her research in this area for a number of years a fascinating glimpse into early personality psychology
